HOW YOU BENEFIT

CONCEPTION / INDIVIDUAL SOLUTIONS

Our highly qualified planners and developers are specialised to find holistic solutions for challenging tasks. In an ongoing dialogue with our customers, they work out and develop state-of-the-art product concepts tailored for specific business processes.

CONSTRUCTION / VISUALISATION

For project planning, we are using state-of-the-art 3D CAD systems. Even complex tasks can be completed with the highest level of precision. Production and functional capability can already be estimated during the construction process.

Interactive product animations are used to illustrate complex technologies in a comprehensible and impressive way. Our experts use virtual 3D presentations on the most modern CAD systems to visualise the precise realisation of individual customer demands.

PRODUCTION / MANUFACTURE

In our very own production we continuously carry out quality controls to maintain the highest level of quality for our products.

QUALITY

Rolcontainer.mobi products meet the strict safety standards of Deutsche Post, the Employer's Liability Insurance Associations and all relevant European standards. Our quality management system has been certified by the TÜV Rheinland Group according to ISO 9001.

SERVICE / CONSULTING

We offer professional repair and spare part services. - contact us -

Rolcontainer.mobi business areas

| The three main categories |

INDUSTRIAL SOLUTIONS

Since practically every company can use our equipment, but every industry needs „its“ own solution, we have designed our range of products to meet the requirements of specific industries.

For textile logistic companies, we offer an extensive range of containers for large laundry companies and the transportation of their laundry. Here we are especially proud of the success of our Combitainer Series Junior and Classic.

The supply logistics sector covers the requirements of retirement homes and hospitals. Examples of this segment include STAR-Collectors, Light Metal Containers and the comprehensive Kombix System.

Various transport equipment such as Stacking Carts and Platform Trolleys are positioned on the market to cover all industries. From the beverage industry to print offices, forwarding agents, or public authorities, etc. – Rolcontainer.mobi offers the ideal transport solution.

INTRALOGISTICS

We optimise the material flow within and between the companies through future-oriented transport systems. Sophisticated, individual solutions and high quality serial products determine the power spectrum of the Rolcontainer.mobi Group.

Combining our core competencies, such as developing new products using the latest 3D-CAD systems, designing, producing, distributing and working in close cooperation with our customers, enable the implementation of individual solutions and therefore by doing this forming the key of our mutual success.

GLOBAL MAIL LOGISTICS

Since 1995, we have successfully focused on developing high-performance products to ensure an international network of internal and external logistics for the letter and parcel delivery. These products have been distributed all over the world.

Rolcontainer.mobi's products such as the Ecoflex and Parcel Trolley have proved their value more than 100,000 times in the largest international postal companies.

On this basis, we offer our high performance products out of the the Global Mail program for courier, express and postal services, as well as in-house post offices of large companies.

ROLLER CONTAINERS / CAGE TROLLEYS

01 Roller Containers / Cage Trolleys 4-29

02 KOMBIX Shelf / Trolley Systems 30-43

03 All-Purpose Collectors 44-47

04 Shelf / Table Trolleys 48-55

05 Contiflex Containers 56-63

06 Cabinet Trolleys 64-67

07 Sorting / Mail Delivery Carts 68-75

08 Platform Trolley / Pallet Truck 76-79

09 HERKULEX Hand Trucks 80-101

10 Stacking Boxes 102-105

Our Roller / Cage Trolleys are daily being used in the largest international postal companies. Due to their high quality they guarantee a long service life.

Various Trolleys were especially designed for your logistical requirements.

Combitainer - Cage Trolley

| Cargo series |

easy to fold

Single elements, such as roof, side walls and shelf are locked safely.

space-saving storage and transport

Due to the tapered floor substructure the Cargo cage trolley is particularly space-saving.

> technical details:

- solid, galvanised and blue chromated steel frame construction with 45 x 50 mm grid panelling
- easy handling and maximum functionality for storing and transporting all kinds of goods
- closed construction type, particularly safe
- can be nested to save space
- volume reduction of 70 % for transport and storage

optional:

- shelf (loading capacity: 150 kg)

art. no. 322-6000-03

serial running gear:

- 2 swivel and 2 fixed castors, Ø 108 mm, PP plastic
- castors can be changed upon request (see p. 28)

322-8001	740 x 860 x 1740

Combitainer - Cage Trolley

| Master series |

> technical details:

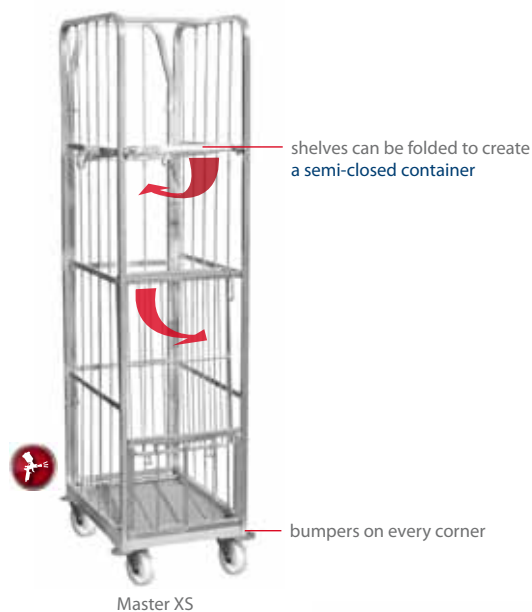

Master XS

- solid tubular steel construction with steel rod panelling
- effective height: approx. 1500 mm
- galvanised and chromated
- clothes rod
- shelves can be folded to create a semi-closed container
- galvanised floor plate, painted

serial running gear:

- 2 swivel and 2 fixed castors, Ø 108 mm, PP plastic

art. no.	dimensions w x d x h approx. in mm
322-2000	400 x 560 x 1680

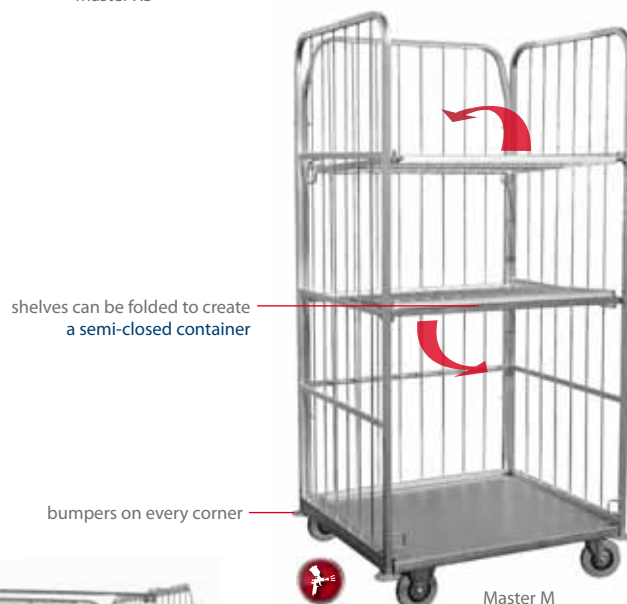

Master M

- solid tubular steel construction with steel rod panelling
- effective height: approx. 1520 mm
- galvanised and chromated
- galvanised floor plate, painted
- shelves can be folded to create a semi-closed container
- upper shelf is self-locking and can be swung upwards

serial running gear:

- 2 swivel and 2 fixed castors, Ø 125 mm, rubber, grey

art. no.	dimensions w x d x h approx. in mm
322-1000	800 x 710 x 1700

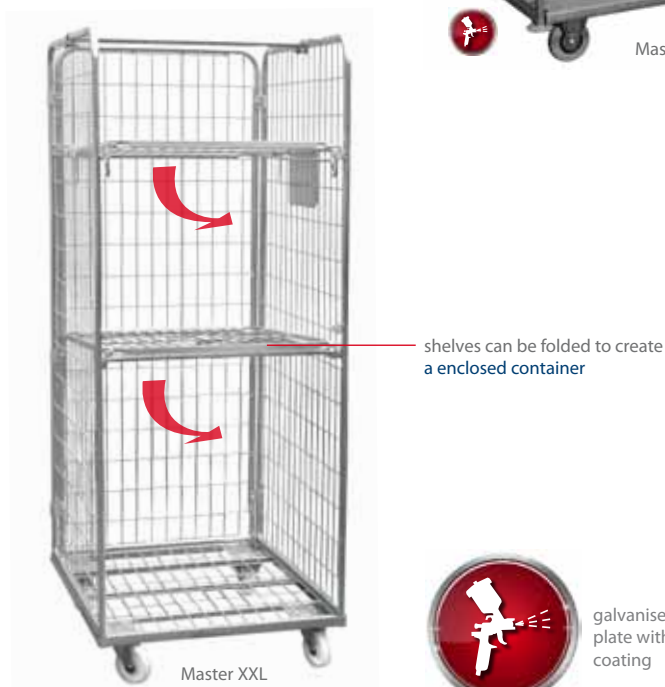

Master XXL

- solid tubular steel construction with steel rod panelling
- effective height: approx. 1600 mm
- galvanised and chromated
- 50 x 100 mm grid panels
- grid floor
- shelves can be folded to create an enclosed container
- clothes rod
- folding pocket on the side wall

serial running gear:

- 2 swivel and 2 fixed castors, Ø 108 mm, PP plastic

art. no.	dimensions w x d x h approx. in mm
325-0080	720 x 810 x 1780

castors can be changed upon request (see p. 28)

Combitainer - Cage Trolley

| Master series |

> technical details:

Master XL1

- solid tubular steel construction with steel rod panelling
- effective height: approx. 1570 mm + strap
- galvanised, yellow chromated
- including two rubber belts
- foldable clothes rod
- standard floor with weatherproof plastic plate
- information plate on the side wall

optional:

- grid floor

serial running gear:

- 2 swivel and 2 fixed castors, Ø 125 mm, rubber, grey

art. no.	dimensions w x d x h approx. in mm
322-0060	860 x 660 x 1750

Master XL2

- solid tubular steel construction with steel rod panelling
- effective height: approx. 1570 mm
- galvanised, yellow chromated
- clothes rod
- grid floor
- information plate on the side wall

optional:

- plastic or phenolic resin plate

serial running gear:

- 2 swivel and 2 fixed castors, Ø 125 mm, rubber, grey

art. no.	dimensions w x d x h approx. in mm
322-0070	860 x 660 x 1750

Master XL3

- solid tubular steel construction with steel rod panelling
- effective height: approx. 1550 mm
- galvanised, yellow chromated
- upper shelf is self-locking and can be swung upwards
- phenolic resin plate on lower shelf offers additional protection against splashing
- information plate on the rear wall

serial running gear:

- 2 swivel and 2 fixed castors, Ø 125 mm, rubber, grey

art. no.	dimensions w x d x h approx. in mm
322-0080	860 x 650 x 1730

castors can be changed upon request (see p. 28)

Ecoflex Motor

| Easy loading and unloading |

Letterbox (optional)
ca. 470 x 267 x 210 mm

> technical details:

- Loading capacity: approx. 300 kg distributed load (without shelf)
- high stability when loading and unloading
- ergonomic transport of heavy loads
- increases the productivity of employees
- adapts to operators walking speed
- effortless smooth driving
- the Ecoflex stops automatically if you let go of the rocker switch intentionally or by accident
- low-maintenance, minimal operating costs

- optional:
- with or without shelves
 - variable number of shelves
 - coupling and drawbar

- serial running gear:
- 2 swivel castors with integrated central locking system and 2 drive wheels, Ø 160 mm, with grey non-marking solid elastic tyres

Ecoflex Motor with 3 shelves	190-0026-E	1330 x 570 x 1600

SLC-Trolley 600

| The ideal solution for your SLCs |

> technical details:

- max. loading capacity: 300 kg without shelves
- max. loading capacity: 500 kg with shelves
- a robust, warp resistant, but still flexible synthetic floor, equipped with integrated safety runners for a secure fork lift loading
- a central locking device with a foot-operated lever guarantees a safe position eg. on inclined surfaces and during transportation
- ergonomically designed pulling handle with integrated handbrake made of shock absorbing synthetic material

optional (for all SLC's):

- coupling and drawbar

serial running gear:

- 2 swivel castors with integrated central locking system and 2 fixed castors Ø 160 mm
- with two-fold ball bearings in the live ring and in the hub
- non-marking elastic solid rubber tyres

- transport

KOMBIX Batching Trolley

| Collect, commission and store |

Approved chrome design for the highest standards in:

- Hygiene
- Durability
- Stability

> technical details:

- depending on the number of compartment dividers, smaller and larger goods as well as clothing or laundry can be stored neatly and well-arranged
- additional label holders, supplied as standard, enable individual labelling of particular compartments
- side rods enable better support for items which do not stack easily
- choose from our extensive range of accessories (see p. 43)

serial running gear:

- 4 swivel castors, 2 with double brake, Ø 150 mm

Technical note:

For the safe attachment of the wheels:

- the nuts have been welded into the corner rods
- the screws have been treated with special securing adhesive

This guarantees that the wheels have a longlasting and secure fit.

> products

- STAR Collector
- Textile Laundry Bags
- All-Purpose Collector
- All-Purpose Collector with foot pedal

> your advantages

- ergonomic handling
- pro-hygiene concept (easy and fast to clean)
- absolute stability
- long service life thanks to rust-free stainless steel
- mobility
- suitable for all types of bags

> areas of application

- collecting
- sorting
- disposing

■ STAR Collector

| High quality, e.g. for laundry |

laundry bag not included

Ergonomic operability

- every STAR collector is equipped with a very smooth-running foot pedal.

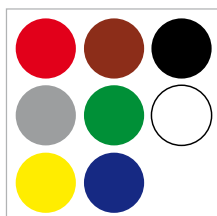

Pro-hygiene concept

- all parts of our STAR-collector can be disinfected regularly and thereby meet the stipulated hygiene standards.

Efficient quick-clamping system

- the bags are fixed very easily in seconds and are held absolutely securely. Suitable for all bag types. Bags can be removed from the front.

Individual colour identification of the lids

- each collector includes seven different colour labels which can be used depending on individual demands. Two coloured labels are included with each collector. The colours can be adapted subsequently to meet requirements.

Ergonomic design
for assembly areas!

> technical details:

820-0000

- shelves are infinitely variable in slope and height
- basic frame made of solid welded and screwed rectangular tubing
- vertically adjustable in eight stages (total: 240 mm)
- angle of inclination adjustable in four stages
- loading capacity: max. 50 kg
- powder-coated in gentian blue RAL 5010
- shelf dimensions: 407 mm

serial running gear:

- 4 swivel castors, 2 lockable, Ø 100 mm

CWA1/2

- shelves are infinitely variable in slope and height
- basic frame made of solid welded and screwed rectangular tubing
- loading capacity: CWA1 max. 150 kg; CWA2 max. 50 kg
- powder-coated in azure blue RAL 5009

serial running gear:

- 4 swivel castors, 2 lockable, Ø 80 mm

- 08 Platform Trolley / Pallet Truck 76-79
- 09 HERKULEX Hand Trucks..... 80-101
- 10 Stacking Boxes 102-105

Our Mail Delivery and Sorting Trolleys are being developed together with large renowned companies for the in- and outdoor distribution and are essential for the sorting and distribution in any company with large quantities of mail.

> products

- Distriflex
- Mail Delivery Cart Vario
- Mail Delivery Cart Duo+
- Mail Delivery Cart Trio
- Mail Delivery Cart Quatro
- Professional Series of Cart Bags

> your advantages

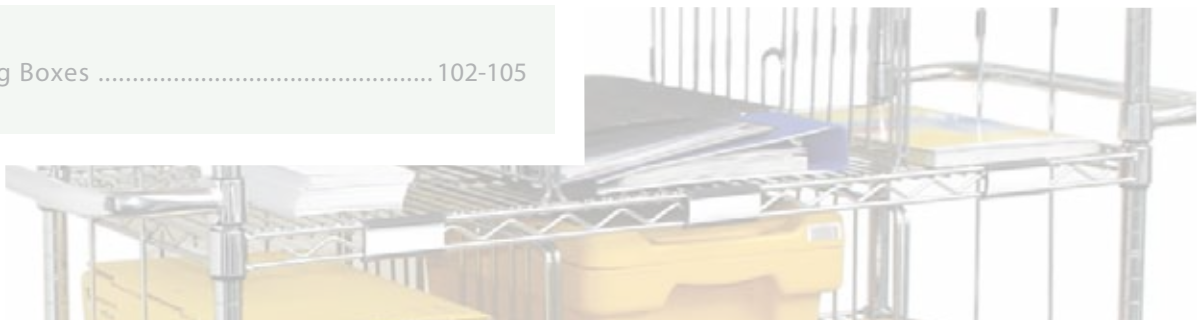

- universal combination possibilities
- long service life
- easy manoeuvring
- low empty weight
- maximum loading capacity
- ergonomic transport of heavy loads

> areas of application

- secure transport
- clear arrangements
- orderliness

DIN A4

- alternatively available for A4 size folders (please ask us)

note pad holder

- note pad holder, made of plexiglas also available art.no.: SAL440

hanging folders **BY Rolcontainer. mobi ONLY**

- highly-tear resistant synthetic material, strengthened by horizontally and vertically incorporated weave
- spaciouly designed and suitable for filing large envelopes, journals, etc

> technical details:

- max. loading capacity 150 kg
- high-quality chrome-plated steel for an elegant appearance and a long service life
- due to the modular design, individual adaptations (e.g. trolley length) can be done immediately
- convenient sizes
- always equipped with 2 handles
- adjustable shelf height

serial running gear:

- 4 swivel castors, 2 with brakes, outstanding running characteristics, Ø 125 mm, rubber, grey

Distriflex V4090 MZ / V4010 MZ additionally equipped with:

- wire edging on the intermediate and bottom shelves
- one wire basket
- two adjustable compartment dividers
- accessories^r (see p. 43)

art. no.	base approx. in mm	dimensions (outside) w x d x h approx. in mm
V4090MZ	914 x 457	1224 x 457 x 1010
V4010MZ	1067 x 457	1377 x 457 x 1010
V4090OZ	914 x 457	1154 x 457 x 1010
V4010OZ	1067 x 457	1307 x 457 x 1010

> technical details:

- loading capacity: 150 kg
- label frames for identifying the compartments
- compartment dividers can be adjusted as required
- side rods guarantee better retention of stored items during transport
- also available without wheels; in various sizes
- accessories (see p. 43)

serial running gear:

- 4 swivel castors, 2 with brakes, outstanding running characteristics, Ø 125 mm, rubber, grey

art. no.	base approx. in mm	dimensions (outside) w x d x h approx. in mm
M4090MZ	914 x 457	1154 x 457 x 1270

S4010M	1067 x 457	1307 x 457 x 1270
S4010H	1067 x 457	1307 x 457 x 1545

Mail delivery cart Duo+

| The professional mail delivery cart |

your advantages

- weight: 13 kg
- foldable

> technical details:

- load: 90 kg
- weight: 13 kg
- easy manoeuvring due to ideal weight distribution
- solid but lightweight steel construction (weight: 13 kg)
- foldable
- guaranteed straight running without the need to raise the front wheel
- hydraulic locking brake
- height-adjustable handle with bell
- cart bags not included
- accessories (see p. 75)

serial running gear:

- with exceptionally smooth movement

art. no.	dimensions w x d x h approx. in mm
532-0000	770 x 610 x 910

■ Mail Delivery Cart Trio

| The professional mail delivery cart |

your advantages

- height-adjustable handle
- easy manoeuvring

„Trio“ for 3 bags

hydraulic locking brake

> technical details:

- max. loading capacity: 80 kg
- easy manoeuvring due to ideal weight distribution
- solid but lightweight steel construction, galvanised and yellow chromated
- hydraulic locking brake
- height-adjustable handle with bell
- cart bags not included

- accessories (see p. 75)

serial running gear:

- with exceptionally smooth movement

art. no.	dimensions (without handle) w x d x h approx. in mm
BZW 3000	810 x 570 x 920

■ Mail Delivery Cart Quattro

| The professional mail delivery cart |

„Quattro“ for 4 bags

your advantages

- height-adjustable handle
- easy manoeuvring

hydraulic locking brake

„Quattro“ with swivel wheel

swivel wheel
guaranteed straight running
without the need to raise
front wheel

> technical details:

- max. loading capacity: 80 kg
- easy manoeuvring due to ideal weight distribution
- solid but lightweight steel construction, galvanised and yellow chromated
- hydraulic locking brake
- height-adjustable handle with bell
- running gear with exceptionally smooth movement
- cart bags not included

- accessories (see p. 75)

serial running gear:

- with exceptionally smooth movement

article	art. no.	dimensions (without handle) w x d x h approx. in mm
Mail Delivery Cart Quattro	BZW 4000	1070 x 570 x 920
Quattro with swivel wheel	BZW 4000-01	1070 x 570 x 920

■ Mail Delivery Cart Vario

| The manoeuvrable professional postman's trolley |

free access when cover is folded back

secure transport even of extra large mail items

hydraulic locking brake

„Vario“ with three boxes

„Vario“ with three bags

„Vario“ with two containers and one bag

> technical details:

- mixed bag/box combination including cover if required
- easy handling due to optimal weight distribution
- stable although a light steel pipe construction, galvanized and yellow chromated
- guaranteed straight running without the need to raise front wheel
- hydraulic locking brake
- height-adjustable handle with bell
- running gear with exceptionally smooth movement
- the front wheel is available as a swivel and/or a fixed wheel
- max. loading capacity: 80 kg

- plastic boxes and cart bags not included
- accessories (see p. 75)

serial running gear:

- with exceptionally smooth movement

article	art. no.	dimensions (without handle) w x d x h approx. in mm
Mail Delivery Cart Vario	530-0000	900 x 625 x 800
Vario with fixed wheel	530-9001	900 x 625 x 800

■ Professional Series of Cart Bags

| For Trio / Quattro / Vario and Duo+ |

cart bags blue or yellow

cover for plastic box, blue or yellow

plastic box, red

plastic box, blue

water-repellent

> technical details:

bags

- water-repellent
- highly tear-resistant material
- with reinforced base and side walls
- with attachment hook for the mail delivery cart

boxes

- plastic boxes and lids available in red (RAL3020) and blue (RAL5002)

article	art. no.	dimensions w x d x h approx. in mm
Cart bag, blue	WT 646-110-052	to fit
Cart bag, yellow	WT 646-110-051	to fit

Lid for plastic box, blue (RAL 5002)	190-BOX-02-D	to fit
Plastic box, red (RAL 3020)	190-BOX-03	470 x 267 x 210
Lid for plastic box, red (RAL 3020)	190-BOX-03-D	to fit
Cover for plastic box, blue	530-1201	to fit
Cover for plastic box, yellow	530-1200	to fit

PLATFORM TROLLEY / PALLET TRUCK

- 01 Roller Containers / Cage Trolleys 4-29
- 02 KOMBIX Shelf / Trolley Systems 30-43
- 03 All-Purpose Collectors 44-47
- 04 Shelf / Table Trolleys..... 48-55
- 05 Contiflex Containers 56-63
- 06 Cabinet Trolleys 64-67
- 07 Sorting / Mail Delivery Carts..... 68-75
- 08 Platform Trolley / Pallet Truck 76-79
- 09 HERKULEX Hand Trucks 80-101
- 10 Stacking Boxes 102-105

Our Pallet Trucks and Platform Trolleys facilitate the daily transport of various goods. The high quality constructions guarantee a long service life.

> products

- Low Loader Trolley
- Platform Trolley Type RW
- Pallet Truck
- Platform Trolley KK 300
- Platform Trolley KK 150

> your advantages

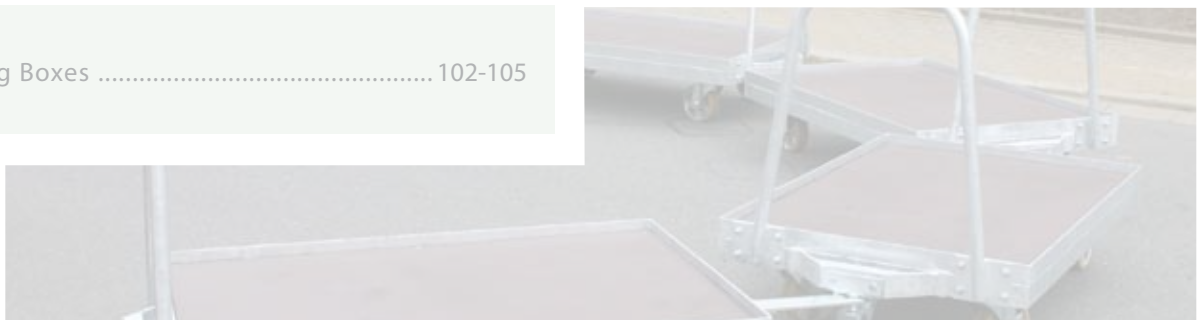

- high loading capacity at low empty weight
- space saving usage when not in use
- can be used for almost any application
- lifting load 2000 kg
- controlled lowering by means of a handgrip
- easy to manoeuvre
- ideal transport of pallets and crates

> areas of application

- general transport of heavy loads
- easy moving of heavy loads

■ Low Loader Trolley for shelf storing position

| Moving heavy loads easily |

your advantages

- fast loading and unloading
- space-saving storage

> technical details:

- empty weight: 85 kg
- max. payload: 1,000 kg
- solid, welded construction, hot-dip galvanised
- effective surface 1200 x 1000 mm, effective height 50 mm
- solid steel cover of 3 mm thickness
- insertion aids for fast loading and unloading with a fork lift truck
- handle for easy extraction from the shelf max. height of 600 mm

serial running gear:

- polyamide rolls, ball bearings, natural white low rolling resistance, Ø 75 mm, ball bearings

art. no.	dimensions
	w x d x h approx. in mm
524-7000	1730 x 1080 x 970

■ Platform Trolley RW

| Moving heavy loads easily |

> technical details:

- speed: max. 6 km/h
- max. loading capacity: 1,000 kg
- max. towing capacity: 3 t
- dimensions (inside): approx. 1210 x 810 mm
- combined welded and screwed steel construction, hot-dip galvanised, incl. handle
- including coupling and drawbar system
- self-locking drawbar

serial running gear:

- 2 swivel and 2 fixed castors, Ø 160 mm, quiet running comfort, castors fitted with foot protection
- castors with stop function
- all castors equipped with foot protection

art. no. 471-0000

■ Pallet Truck

| The practical warehouse helper |

> technical details:

- ideal transport of pallets and crates
- easy to manoeuvre
- controlled lowering by means of a handgrip
- robust hydraulic pump
- minimum fork height is 85 mm
- powder-coated
- lifting height: approx. 200 mm
- fork size: approx. 1150 x 540 mm
- lifting load: 2000 kg
- pallet truck weight: 73 kg

serial running gear:

- drawbar wheel: 200 x 50 mm, rubber tyre, fork wheels: 80 x 70 mm

convoy with HERKULEX Pallet Truck and Euro Line Pallet Trolley

art. no. 720-0000

Platform Trolley KK300

| HERKULEX Series |

> technical details:

- max. loading capacity: 300 kg
- weight: approx. 14 kg
- space-saving storage when not in use
- high-quality lightweight construction with low empty weight
- loading capacity of 300 kg
- can be used for almost any application
- height when folded: 275 mm

serial running gear:

- 2 swivel and 2 fixed castors, Ø 125 mm, with non-marking rubber tyres

art. no.	dimensions w x d x h approx. in mm
KK300	900 x 610 x 960

can be folded to save space

Platform Trolley KK150

| HERKULEX Series |

> technical details:

- max. loading capacity: 150 kg
- weight: approx. 11 kg
- space-saving storage when not in use
- can be used for almost any application
- height when folded: 230 mm

serial running gear:

- 2 swivel and 2 fixed castors, Ø 100 mm, with non-marking rubber tyres

art. no.	dimensions w x d x h approx. in mm
KK150	735 x 475 x 810

can be folded to save space

HERKULEX HAND TRUCKS

- 01 Roller Containers / Cage Trolleys 4-29
- 02 KOMBIX Shelf / Trolley Systems 30-43
- 03 All-Purpose Collectors 44-47
- 04 Shelf / Table Trolleys..... 48-55
- 05 Contiflex Containers 56-63
- 06 Cabinet Trolleys 64-67
- 07 Sorting / Mail Delivery Carts..... 68-75
- 08 Platform Trolley / Pallet Truck 76-79
- 09 HERKULEX Hand Trucks 80-101
- 10 Stacking Boxes 102-105

Our Herkulex Hand Trucks are made of aluminium or stainless steel, guaranteeing maximum stability and security. Foldable or static, soft-touch rubber or pneumatic wheels — various designs offer an optimal solution for every logistical requirement.

- partially space saving and foldable
- low empty weight (aluminium)

> areas of application

- transport of high-quality goods
- transport of damageable and heavy loads

■ Hand Truck | HERKULEX Series |

SK150-01

SK200-01

SK200-03

> technical details:

SK150-01 und SK200-01

- axle width: approx. 500 mm
- footplate (l x w) approx. 210 x 360 mm
- vertical oval tubes made of high-strength aluminium alloy
- safety handles
- upper and lower cross-bars curved, otherwise straight
- wheel guards and footplate made of shock-resistant aluminium diecast aluminium

SK150-01

- max. loading capacity: 150 kg
- height approx. 1250 mm
- weight: approx. 8,2 kg

SK200-01

- max. loading capacity: 200 kg
- height approx. 1310 mm
- weight: approx. 9,7 kg

SK200-03

- axle width: approx. 520 mm
- footplate (l x w) approx. 270 x 320 mm
- height approx. 1300 mm
- weight: approx. 7,7 kg
- load: 100 kg
- solid welded construction made of high-strength aluminium alloy
- safety handles
- cross-bars curved
- large wheel guard
- extra-long safety skids

optional:

- solid rubber Soft-Touch tyres, non-marking, grey and puncture-proof

serial running gear:

- pneumatic wheels, Ø 260 mm with precision ball bearings

HERKULEX Hand Truck Series

| Individual design |

This hand truck is very special, since it was perfected by your experience and wishes.

Various elements can be changed to create your perfect hand truck according to your demands.

> technical details:

- max. loading capacity: 250 kg
- axle width: approx. 465 mm
- footplate (l x w) approx. 280 x 270 mm
- height approx. 1310 mm
- weight: approx. 10,8 kg

serial running gear:

- Ø 260 mm, air tyres, with precision ball bearings for very easy running

CAUTION:

Exchange several elements and create "your own hand truck".

extra-wide footplate, foldable, 245 x 370 mm (l x w)

solid rubber Soft-Touch tyres, puncture-proof, non-marking

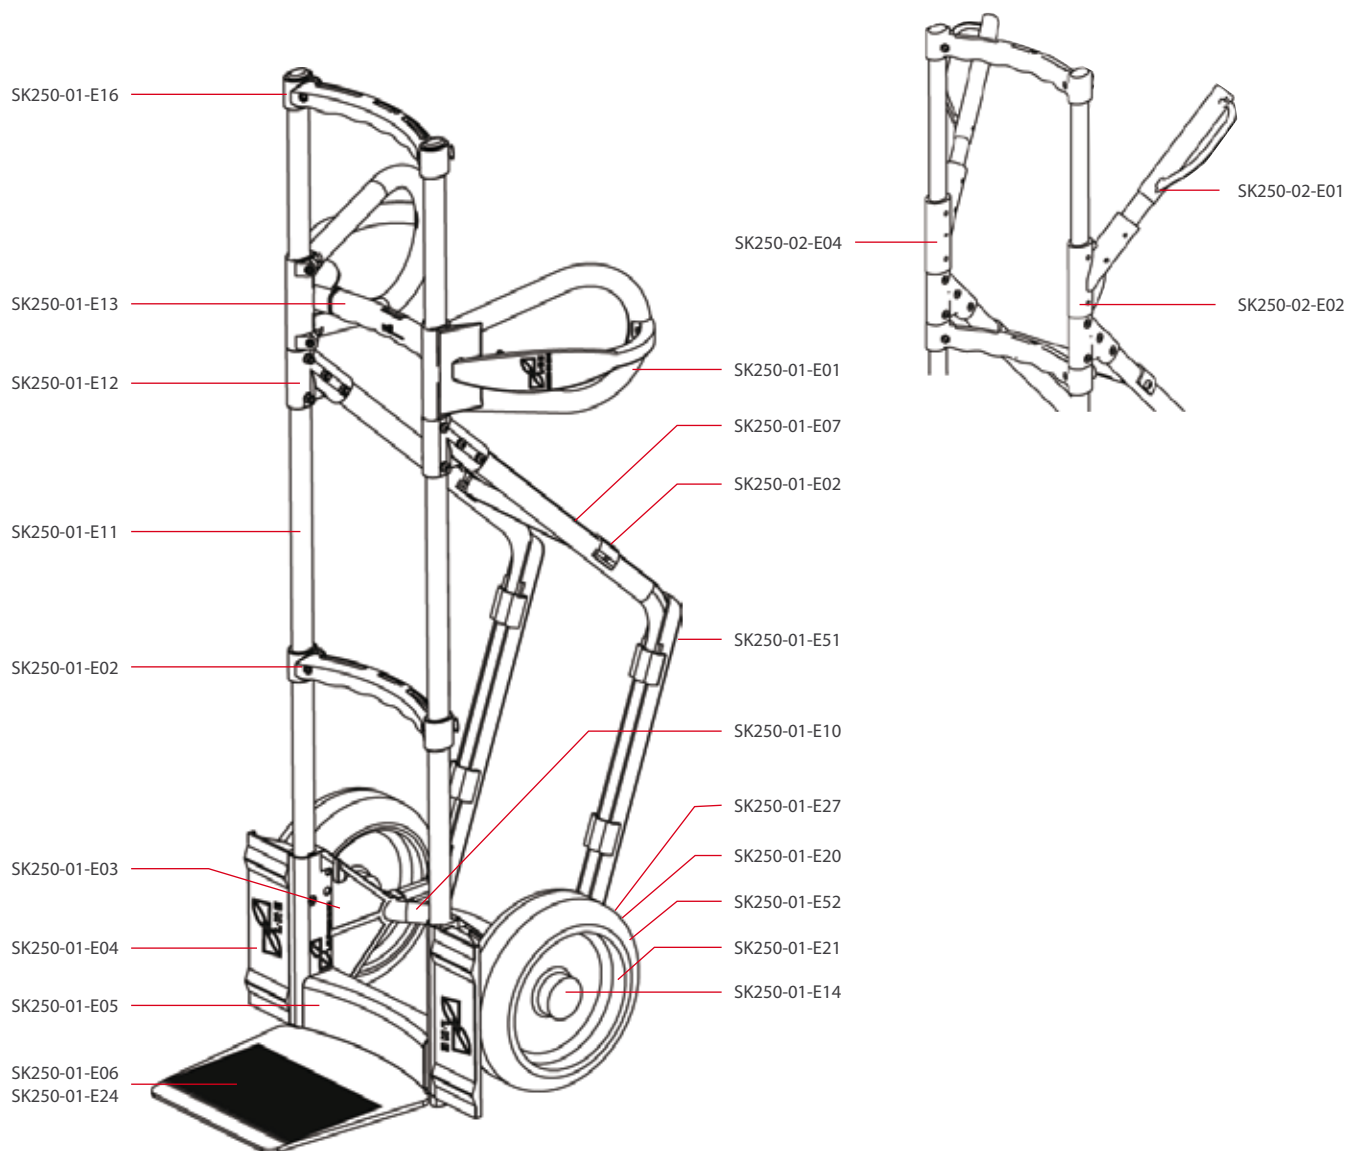

WITHOUT ADDITIONAL COSTS

STAINLESS STEEL

your advantages

- easy transport
- versatile

> technical details:

- dimensions: approx. 600 x 740 x 1200 mm
- stainless steel tubular construction
- available in titanium gold finish or polished stainless steel tubular construction
- base covered with carpet
- foldable footplate
- coat hook
- welded and assembled
- loading capacity: 80 kg

- serial running gear:
- pneumatic wheels with rubber profile, Ø 200 mm

art. no. 333-0006

art. no. 333-0009

optional footplate
(p. 100)

can be folded
to save space

can be folded
to save space

> technical details:

- max. loading capacity: 125 kg
- axle width: approx. 475 mm
- footplate (l x w) approx. 280 x 300 mm
- height approx. 1100 mm
- vertical oval tubes made of high-strength aluminium alloy
- safety dog ear handles
- foldable footplate
- upper cross-bars curved
- row of holes for suspending wire baskets
- foldable beams made of shock-resistant aluminium die casting (protected by sliding sleeves made of aluminium tube)
- high-strength polyamide support and safety skids

- wheel guard and footplate made of particularly shock-resistant diecast aluminium

serial running gear:

- Soft-Touch tyres, Ø 200 mm with precision ball bearings
- water- and dustproof precision ball bearings

art. no.	weight kg
SK125-19	12
SK125-21	12,3

> technical details:

- max. loading capacity: 150 kg
- dimensions when extended (l x w x h): approx. 590 x 600 x 1270 mm
- dimensions when folded (l x w x h): approx. 590 x 60 x 1000 mm
- axle width: approx. 890 mm
- footplate (l x w) approx. 590 x 390 mm
- height approx. 1270 mm
- weight: approx. 12,6 kg
- padded handle, additional standard handle
- vertical oval tubes made of high-strength aluminium alloy
- sturdy aluminium footplate with large loading area
- foldable handles for heavy loads
- foldable and easy to store

serial running gear:

- Ø 200 mm, with non-marking rubber tyres

art. no. KK200

can be folded to save space

Folding Truck
| HERKULEX Series |

> technical details:

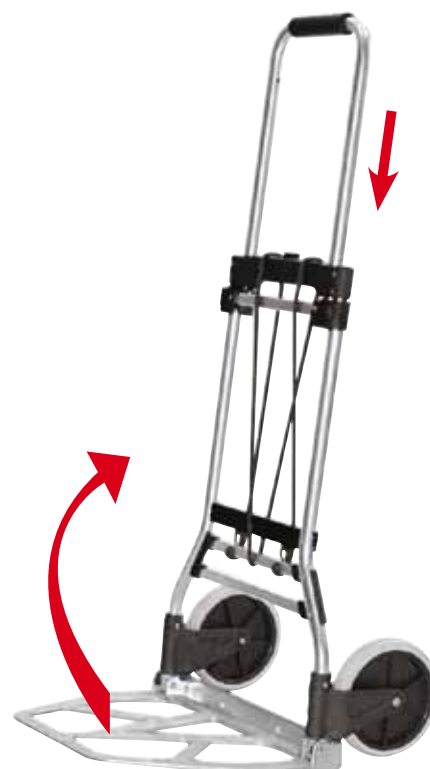

- max. loading capacity: 90 kg
- axle width: approx. 490 mm
- footplate (l x w) approx. 340 x 490 mm
- height approx. 1100 mm
- weight: approx. 4,5 kg
- designed for loads of up to 90 kg
- easy to convert from mini to maxi
- height telescoped: 800 mm

serial running gear:

- Ø 170 mm, with non-marking rubber tyres

can be folded to save space

art. no. KK125

Folding Truck | HERKULEX Series |

> technical details:

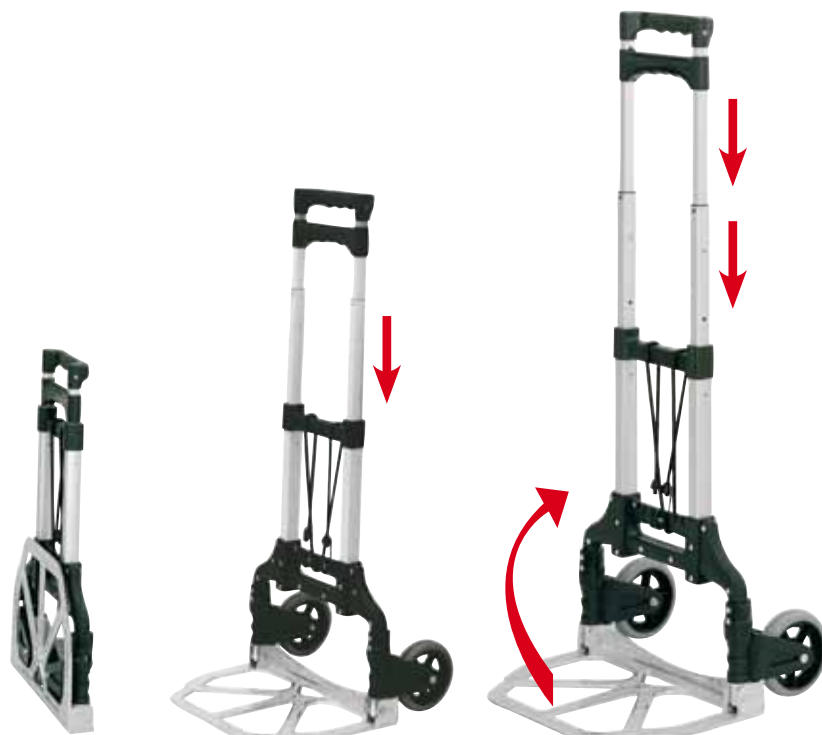

- max. loading capacity: 50 kg
- axle width: approx. 400 mm
- footplate (l x w) approx. 280 x 390 mm
- height: approx. 1000 mm
- weight: approx. 3,5 kg
- high-class design and outstanding processing
- multiple height adjustment options
 - can be adapted to body height
- can be folded to save space
- very versatile in use
- height telescoped: 640 mm

serial running gear:

- Ø 125 mm, with non-marking rubber tyres

art. no. KK50-01

can be folded to save space

Foldable Hand Truck | Ready for use |

> technical details:

- max. loading capacity: 90 kg
- chromium plate handle, ergonomic design
- dimensions when ready for use (l x w x h):
approx. 350 x 430 x 1008 mm
- dimensions when folded together (l x w x h):
approx. 350 x 430 x 720 mm
- footplate (l x w) approx. 250 x 350 mm
- weighs only 7 kg approx.
- vertical oval tubing made of high-strength aluminium alloy
- strong steel foot-plate with large loading surface
- foldable and practical for storing away
- TÜV Süd, tested for safety

serial running gear:

- Ø 150 mm, 2 solid rubber wheels with ball bearings

art. no. KK100-LB

can be folded to save space

Aqua Folding-Tray Truck

| HERKULEX series |

2in1

highly versatile

> technical details:

- max. loading capacity: 250 kg
- height approx. 1270 mm
- weight approx. 13,5 kg
- axle width approx. 510 mm
- footplate (l x w) approx. 480 x 520 mm
- can also be used as a normal hand truck
- made of high-strength aluminium alloy
- four receptacles for round containers
- versatile in use even when receptacles are folded up
- short, flat footplate - slides easily underneath goods

- serial running gear:
- Ø 260 mm, air tyres, with precision ball bearings for extra smooth running

art. no. SK250-03

Triple-Purpose Hand Truck

HERKULEX series |

> technical details:

- max. loading capacity: 350 kg
- very solid aluminium profile hand truck, high loads can be transported in three different positions
- axle width approx. 530 mm
- footplate (l x w) approx. 180 x 450 mm
- height approx. 1300 mm
- weight approx. 21 kg
- in the horizontal and inclined positions (45°) even longer distances can easily be covered under load
- profiled handles for firm grip

- short, flat footplate - slides easily underneath goods

serial running gear:

- Ø 260 mm, pneumatic wheels; Ø 120 mm with PU tyres

art. no. MFK350

STACKING BOXES

- 01 Roller Containers / Cage Trolleys 4-29
- 02 KOMBIX Shelf / Trolley Systems 30-43
- 03 All-Purpose Collectors 44-47
- 04 Shelf / Table Trolleys..... 48-55
- 05 Contiflex Containers 56-63
- 06 Cabinet Trolleys 64-67
- 07 Sorting / Mail Delivery Carts..... 68-75
- 08 Platform Trolley / Pallet Truck 76-79
- 09 HERKULEX Hand Trucks 80-101
- 10 Stacking Boxes 102-105

Our Stacking Boxes are ideal for individual storing and stacking of different types of goods. The construction can be dismantled easily so that space-saving storage and flexible use are possible.

Due to the solid and hot-dip galvanised steel construction, safety and economic efficiency are enormous.

> products

- Euro-Stacker
- Stacking Cage
- Ecoflex-Racksystem

> your advantages

- mobile storage systems
- easy to assemble and disassemble
- stackable
- compatible with available systems
- indestructible due to welded steel construction
- unlimited number of possible combinations
- economic efficiency

> areas of application

- storing
- stacking
- rental or leasing of mobile storage systems

■ Euro-Stacker

| Movable and stackable transport equipment |

> technical details:

- load: 200 kg
- all round frame construction with 50 x 50 mm wire mesh
- one of the broad sides can be opened half-way

serial running gear:

- 4 swivel castor, PP plastic, Ø 125 mm, with large thread guards, one castor of which is lockable

art. no.	dimensions w x d x h approx. in mm
480-0000	1240 x 835 x 1450

example of use

■ Stacking Cage

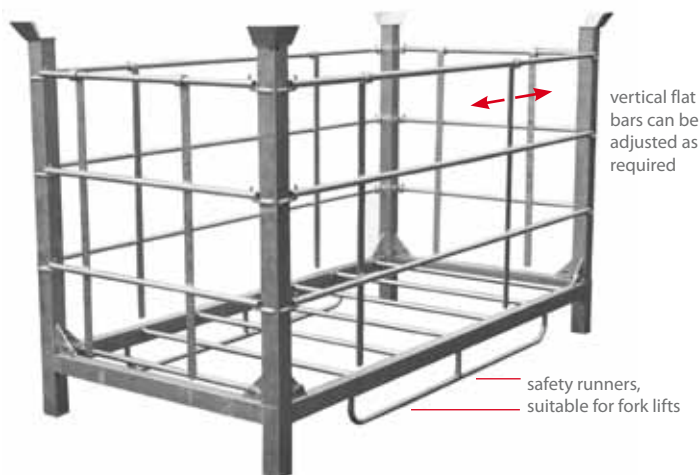

| Individual storage and stacking |

> technical details:

- max. stacking weight per cage: 425 kg
- solid steel construction, hot-dip galvanised, ideal dimensions
- dismountable screwed construction for space-saving storage
- cross bars can be removed from all sides for loading and unloading
- vertical flat bars for securing the load can be adjusted as required
- easy stacking and high stability due to entry brackets on the corners
- stackable in fours
- safety runners, suitable for fork lifts

optional:

- multiple bonded board for the base
- cage walls for the sides

stacking frame with base

art. no.	dimensions w x d x h approx. in mm
501-0000	2000 x 975 x 1256

all cross bars can be removed for loading and unloading

screwed construction

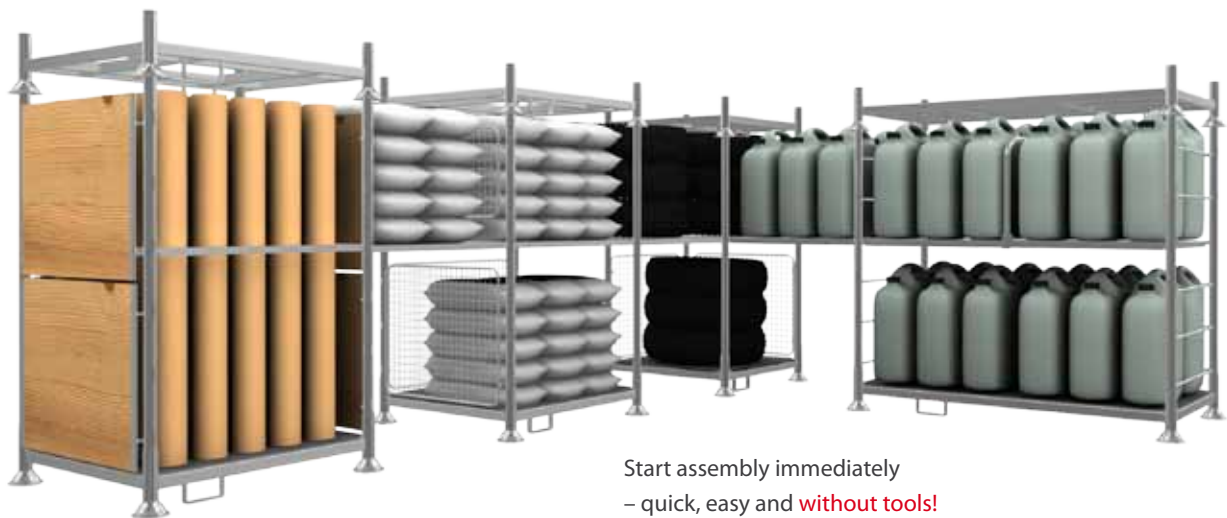

entry brackets

■ Ecoflex-Racksystem

| storage systems - as individual as you |

The solid Ecoflex-Racksystem is the key to maximum flexibility - many additional components can be attached thanks to the vertical slots in the posts.

Start assembly immediately
– quick, easy and **without tools!**

> technical details:

- solid, hot-dip galvanised steel construction for ideal corrosion resistance; also available as powder-coated version in all RAL colours
- plug-in-only system
- assembly parts are vertically adjustable in a raster of 300 mm
- bearing capacity of base element up to 2000 kg
- bearing capacity per intermediate floor up to 300 kg depending on design
- stackable up to 4 high, max. 8,4 m

directly from the
manufacturer
- NEW system - patented -

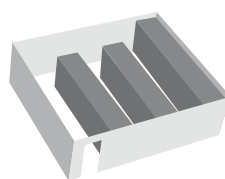

Ideal use of space!

this system adapts to your storage area

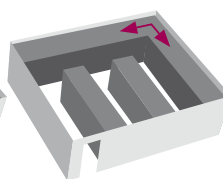

Our Ecoflex-Racksystem provides for the maximum utilisation of your storage area.

The simple plug-in system can be built multi-storey, even diagonally - according to your requirements.

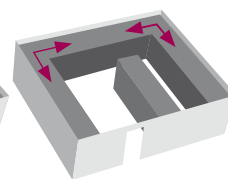

Get the most out of your storage area.

Example 1

Example 2

Example 3

Unlimited number of possible combinations!
Compatible with standard storage systems!

According to your needs, the Ecoflex-Racksystem can be extended!

This system is not only suitable for industrial storing but also for storing general products, such as beverages, clothes, feeding stuff, etc.

Industrial pallets or euro pallets – everything can be stored – goods in containers, on shelf boards, goods packed in cardboard boxes or loose, rolled goods – **just everything.**

Rolcontainer.mobi - your expert for transport equipment

| Always the best solution |

Apart from Industrial Solutions, we also work in the fields of Intralogistics and Global Mail Logistics both nationally and internationally and offer innovative individual and comprehensive solutions.

INTRALOGISTICS

With ideal control and coordination of the material flow with custom-made transport equipment for high-performance intralogistics, we make it possible for your business to increase economic efficiency.

Our core competencies conception, construction and production work for your success!

If you are interested in innovative and sophisticated product solutions in the area of Intralogistics, we would be happy to send you our latest catalogue.

Cargo-Liner

This patented system for the flexible transport of materials in smaller batches can be ideally integrated into the material supply of milk run trains.

SLC-Trolley

This trolley guarantees an ideal flow of materials in your production plant. SLC Euro trolleys can be used by hand or with a tractor.

Platform Trolley Type X

The platform trolley is used for transporting Euro pallets, grid boxes, industrial pallets, large pallets, etc. in a convoy.

GLOBAL MAIL LOGISTICS

Due to the steadily growing complexity of the market, challenges in internal and external logistics in international letter and parcel mailing have increased.

Among our loyal customers are national and international, large postal companies, such as courier, express and parcel services.

If you are interested in innovative and sophisticated product solutions in the area of Global Mail Logistics, we would be happy to send you our latest catalogue.

Stacking carts and mail delivery carts

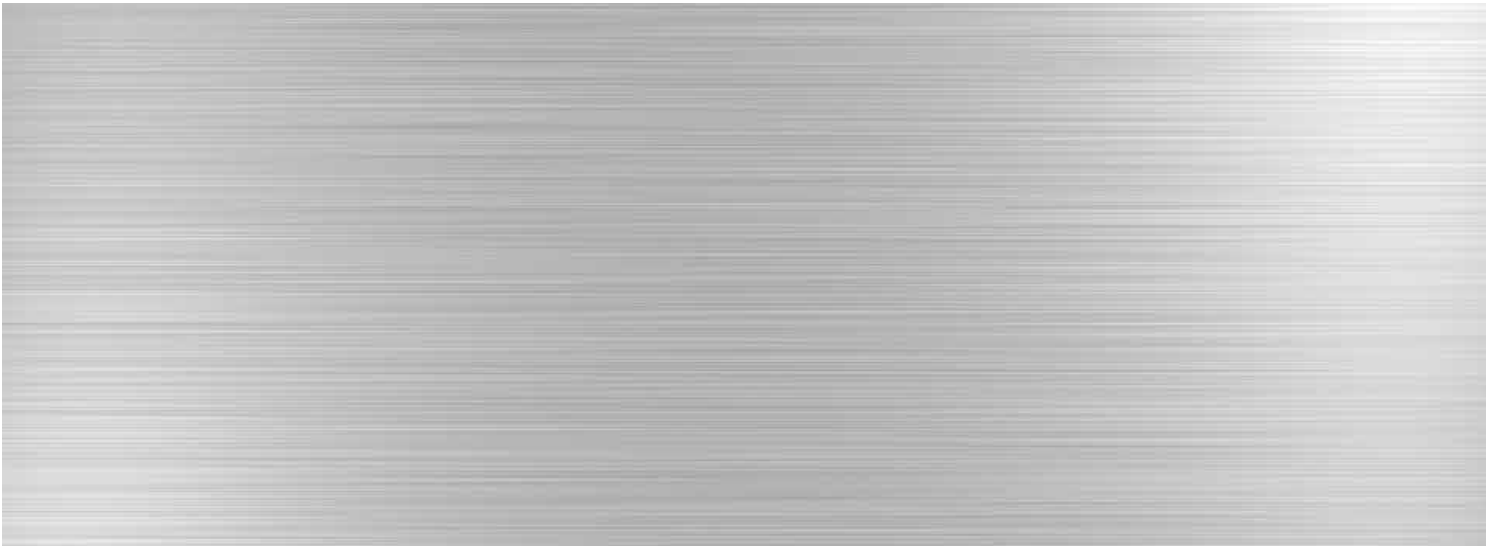

We offer many different designs for the best possible solution for any kind of logistic application. They have been developed for indoor and outdoor mail distribution and are indispensable for sorting and distributing.

Ecoflex and MODULette

For years, Rolcontainer.mobi roller containers have been used in large-scale, well known businesses. High-quality processing ensures a long service life.

EXCELLENCE IN MATERIAL HANDLING
